REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The primary reason for allowance of claims 1, 4-13, and 17-20 is the inclusion of a warning executing unit executing selectively one or both of the warning control of the first warning unit and the warning control of the second warning unit. When the defective condition of the image forming device continues for a time, exceeding a predetermined period, without repair, the warning executing unit executing either one of the warning controls of the first and second warning units or both. This is found in all of claims 1, 4-13, 17-20, but not disclosed nor suggested by the prior art of record.

The primary reason for allowance of claims 2 and 14-16 is the inclusion of a warning executing unit executing selectively one or both of the warning control of the first warning unit and the warning control of the second warning unit. When an error is detected, the warning executing unit executing the warning control of the second warning unit, and when the defective condition of the image forming device continues for a time, exceeding a predetermined period, without repair, the warning executing unit executing the warning control of the first warning unit. This is found in all of claims 2 and 14-16, but not disclosed nor suggested by the prior art of record.

The primary reason for allowance of claim 3 is the inclusion of a warning executing unit executing selectively one or both of the warning control of the first warning unit and the warning control of the second warning unit. When the defective condition of the image forming device continues for a time, exceeding a predetermined period, without repair, the warning executing unit executing the warning control of the

first warning unit. This is found in all of claim 3, but not disclosed nor suggested by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Yamaoka et al. discloses a jam detecting device in a copying machine. Shimamura discloses a remote maintenance system for LAN connected devices. Fukushima discloses a monitoring device for a plurality of image forming apparatuses. Kikuno discloses a managing system for image forming apparatuses. Matsuo discloses a warning device for a jammed sheet. Sawada et al. discloses a remote service system for a plurality of image forming apparatuses. LoBiondo et al. discloses a remote user interface enabling display of service and fault history. Shimomura et al. discloses an image forming apparatus having self-repair function. Kobayashi et al. (Japan, 170) discloses a toner concentration abnormality detector and fail safe device.

The following changes to the drawings have been approved by the examiner:

The Japanese characters have to be replaced with English in Fig. 1.

In order to avoid abandonment of the application, applicant must make these above drawing changes.
